Description

AFSAC ICAO ASTC Tunis is a specialized private training center dedicated to strengthening international civil aviation capacity via competency-based training programs. Accredited by ICAO with dual recognition as an Aviation Security Training Centre (ASTC) and a Member of the TRAINAIR PLUS Programme since 2017, AFSAC holds the unique distinction of being the only private training Center with this combined ICAO accreditation status.

Beyond aviation security, our centre delivers specialized trainings supporting the implementation of key ICAO Annexes, covering priority areas : Aerodromes, Air Navigation Services, Air Transport, Environment, Flight Safety & SMS, AVSEC, Aviation Management, Aviation Law, Training Competency Development, and Facilitation.

This unique private-sector position within the ICAO network provides exceptional agility and responsiveness in meeting evolving global aviation training needs while maintaining compliance with ICAO Standards and Recommendations.

Mission

To deliver ICAO-accredited competency-based training solutions of the highest international standard, leveraging our private-sector flexibility to provide tailored, responsive programs that enhance the competencies of aviation professionals and support States in building resilient and sustainable civil aviation systems.

Vision

To be the world's leading private aviation training center, recognized for excellence in competency-based training and innovation, and for our unique dual ICAO accreditation, contributing to a safer, more secure and sustainable global aviation system."
